

Cathy Inouye – Nomination Statement for Executive Director

A colleague's invitation prompted me to attend my first WSKW Conference in October 2004. It was for me, a rare professional conference experience. We are a wonderful and unique gathering of truly supportive and welcoming professionals who take care and interest in the work and success of our colleagues and students. I am truly impressed with our dynamic colleagues who currently serve on our Executive Committee and possess the ideas, passion, and vision to help evolve and carry our organization forward. As Executive Director, it would be my privilege and commitment to guide, support, give context to, and facilitate the Executive Committee's work so that your vision and ideas can be realized and grow our organization.
